

CYL ENVIRONMENTAL POLICY

Community Youth London has two environmental aims:

1. To be aware of, and comply with, any environmental regulations which directly relate to its own business activities;
2. As an organisation based in a production company ensure that we are aware of regulations and responsibilities applicable to us and our clients.

Community Youth London is an organisation currently based in a visual and audio production company located at Unit 3a Juno Way, South Bermondsey, London, SE14 5RW. CYL does not engage in manufacturing, construction or transport provision.

The office works in an environmental frame work as set out by the landlords and the London Borough of Lewisham. Within the office practices are employed to ensure that materials are recycled, or qualities of materials are reduced in order to minimise the level of waste this includes paper, toner cartridges, tan and plastic. When any new equipment is purchased consideration is given to the ergonomics, and levels of energy consumption and emissions. Lights and equipment are maintained and used in such a way to reduce the impact of energy emissions.

CYL will recognize the strategic environmental matter, or recognition of how work and projects can be placed in sites with specific environmental need, encouraging the participation in improving the physical state of the area and the quality of life within the local community. NetRegs, Environment Agency and Department of the Environment will be used as a guidance to inform the policy and work of CYL.

This policy is reviewed annually and updated accordingly.
